EDUCATION

University of the Pacific

Master of Science in Computer Science

Sri Venkateswara Institute of Technology

Bachelor of Technology in Computer Science Engineering

Stockton, CA, USA

Aug. 2023 – Dec. 2024

Anantapur, AP, India

Jun. 2016 – May. 2020

PROGRAMMING SKILLS

Programming Languages: JavaScript, Java, C, Python, GoLang

Development: HTML, CSS, React (Redux-sagas, hooks, thunk), Node.js, VB.NET, Bootstrap, Blender Python API, Tailwind CSS, Express.js, Wordpress, REST APIs, Strapi

Database Technologies: MongoDB, SQL, PL/SQL, DynamoDB

Utilities & Tools: Figma, Blender, Unity, Unreal Engine, Autodesk Maya, 3ds Max, Adobe XD, AWS, Wireshark, Autopsy, Snort, Docker, Jira, VMware, Kali Linux, ERP, ServiceNow ITSM, Unix System Administration tools, OpenVR / OpenXR

Dev Tools / Applications: Visual Studio, PostgreSQL, Sublime Text, VirtualBox, Jupyter, PyCharm, Git

RELEVANT COURSEWORK

Data Structures and Algorithms, Algorithm Design and Analysis, Operating Systems, Database Management Systems, Object-Oriented Analysis & Design, Discrete Mathematics, Calculus

EXPERIENCE

Mphasis

Associate Software Engineer

Bengaluru, India

Feb. 2022 – Mar. 2023

- Trained on Golang, gaining expertise in backend development and system programming.
- Worked on the HPE-IT project, contributing to the maintenance and development of HP Printers & Servers in HPE Labs.
- Developed and maintained software solutions for HP Printers & Servers, ensuring seamless day-to-day operations.
- Developed REST APIs and microservices using Golang for seamless communication between systems.
- Designed and executed unit and integration test strategies to enhance system performance and reliability.
- Collaborated with cross-functional teams to implement software enhancements and troubleshooting issues in HPE Labs.
- Optimized system workflows by improving software functionality, reducing downtime, and increasing efficiency.
- Participated in code reviews and knowledge-sharing sessions to improve code quality and team performance.

Eduflex

Software Engineer II

Bengaluru, India

Sep. 2021 – Dec. 2021

- Led the UX/UI redesign of the company website, enhancing visual aesthetics, user experience, and responsive design to improve engagement and accessibility.
- Conducted user research and applied design thinking principles to create intuitive interfaces aligned with business goals.
- Built custom screens using .net, JavaScript, HTML, CSS, PL/SQL and improved productivity of the application
- Enhanced user experience by fine-tuning stored procedures and SQL queries for efficient data retrieval
- Optimized website performance, reducing rendering time by 20% through efficient coding, asset optimization, and improved UI components.
- Utilized design tools such as Figma Adobe XD to create wireframes, prototypes, and high-fidelity mockups for effective visual communication.
- Utilized Git for version control and followed Agile methodologies to deliver projects on time.
- Scheduled and led knowledge transfer sessions to new associates.

PROJECT

Character Animation

UOP, Stockton, CA

Master's - Character Greeting Project

- Designed and implemented personalized character greetings using Blender for 3D modeling and animation.
- Created multiple facial expressions, rigged characters, and refined animations for immersive user interaction.
- Collaborated on workflow planning and documentation to ensure consistency and usability in the animation pipeline.

Virtual Reality

UOP, Stockton, CA

Master's - Muir Experience

- Developed a virtual reality experience recreating John Muir's landscapes using Unity and C for interactive storytelling.
- Implemented a Rec Room-style user interface for intuitive navigation through virtual environments.
- Integrated multimodal interactions including simulated treks, wildlife observation, and educational content for immersive learning.

Pet Store

India

Bachelor's - E-Commerce Website

- Developed a complete e-commerce platform for a pet store transitioning online.
- Created features for selling animals, supplies, food, toys, collars, aquariums, and more.
- Designed UI using HTML, CSS, and JavaScript; later revamped using React for better responsiveness.
- Implemented SQL database for inventory, orders, and transactions.
- Collaborated in a 3-member team for feature development and performance optimization.

APPRENTICESHIP

IITM Research Park — GUVI

Chennai, India

Web Development Trainee (Certified by IIT-M Pravartak & GUVI)

Dec. 2020 – Apr. 2021

- Gained full-stack development expertise using Node.js, React.js, MongoDB, and NPM.
- Built projects such as a PAN Card Application and Netflix Clone.
- Designed responsive UI/UX using Figma, React.js, and Tailwind CSS.
- Developed REST APIs with Node.js & Express.js, integrating MongoDB.
- Implemented Strapi as headless CMS for content workflows.
- Built projects such as a PAN Card Application and Netflix Clone.
- Designed responsive UI/UX using Figma, React.js, and Tailwind CSS.

INTERNSHIP

TechCiti Pvt Ltd

Bengaluru, India

Intern

Dec. 2019 – Mar. 2020

- Applied UI/UX design principles for improving layouts and user interactions.
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Built interactive components and learned frameworks like React.js and Bootstrap.
- Practiced version control using GitHub for coursework and projects.

ACHIEVEMENTS

- Earned “The Web Developer Bootcamp 2021” certification on Udemy.
